MARTIN GACHUCHA

MEDIA MANAGER | DIGITAL MARKETING | CAMPAIGNS | FUNNELS | ANALYTICS

Nairobi, Kenya | Phone: _____ | Email: _____ | LinkedIn: _____

PROFESSIONAL SUMMARY

Digital marketing and technology professional with hands-on experience managing social media campaigns, promotional content, online brands, customer engagement, e-commerce activities, websites, and digital workflows. Experienced in developing campaign concepts, creating conversion-focused content, supporting lead generation and customer acquisition, and using analytics to identify opportunities for improvement. Combines marketing, sales, web development, and data visualization skills to understand the full customer journey from campaign and landing page through lead follow-up and conversion.

CORE COMPETENCIES

Campaign & Media Management • Social Media Marketing • Meta Business Suite & Ads Manager • Content Strategy • Lead Generation • Customer Acquisition • Landing Pages & Website Management • Conversion-Focused Marketing • Customer Engagement & Follow-Up • E-commerce • Marketing Analytics & Reporting • Data Visualization • Digital Workflow Optimization

PROFESSIONAL EXPERIENCE

Digital Marketing & Technical Support Specialist | Freelance | 2024–Present

- Manage social media marketing campaigns and promotional activities for small businesses and retail brands.
- Develop promotional content, product campaigns, audience-focused messaging, and customer engagement strategies.
- Support website updates, online integrations, landing-page improvements, and digital business operations.
- Assist with online visibility, lead generation, customer acquisition, and follow-up activities.
- Apply technical troubleshooting, QA testing, and workflow optimization to improve digital customer experiences.

Founder & Digital Marketing Lead | Vaziverse

- Plan and manage marketing campaigns for apparel and lifestyle products.
- Create Facebook and Instagram content, promotional creatives, and campaign concepts aligned with product offers and target customers.
- Manage customer inquiries, sales activities, and online brand growth across digital channels.
- Develop digital marketing approaches focused on engagement, customer response, and conversions.

Marketing Lead | Teva Outdoor Store

- Promote outdoor apparel and equipment through digital channels, with a focus on the Kenyan market.
- Create advertising creatives, product campaigns, promotional videos, and social media content.
- Support online sales, customer engagement, brand awareness, and e-commerce activities.
- Develop campaign and website content that connects product offers with clear customer actions such as WhatsApp enquiries and online purchases.

Store Clerk – Sales, Operations & Technical Support | 2023–2024

- Assisted customers with product selection, sales transactions, and after-sales support.
- Managed inventory records and sales reporting while supporting day-to-day store operations.
- Supported POS systems and resolved operational and technical issues.
- Maintained customer relationships and helped identify customer needs during the sales process.

SELECTED DIGITAL & TECHNICAL PROJECTS

E-commerce / Store Website: Built and supported responsive web experiences for product discovery, customer engagement, and online sales.

Store API: Developed a CRUD-based API using Node.js and MongoDB with modular architecture.

Portfolio Website: Built and deployed a responsive website using HTML, CSS, and JavaScript.

Python Automation: Developed scripts for data processing and file operations.

QA Testing Portfolio: Created test cases, executed testing procedures, and reported defects.

DATA & ANALYTICS

Data cleaning and preprocessing • Exploratory Data Analysis • Data visualization and reporting • Basic statistical analysis • Business insights generation • Pandas • NumPy • Excel • Google Colab

DATA VISUALIZATION ASSOCIATE INTERN | 2026–PRESENT

- Create visual reports and dashboards to communicate business and operational information.
- Support data analysis and business intelligence activities.
- Transform datasets into actionable insights through visualization.

EDUCATION

Diploma in Software Engineering (Full Stack Development) | 2021–2023
Data Science Fundamentals | 2026

TOOLS & TECHNOLOGIES

Meta Business Suite • Facebook Ads Manager • Canva • Google Workspace • Excel • Google Colab • JavaScript • React • Node.js • Python • HTML • CSS • MongoDB • MySQL • Git/GitHub • Postman • VS Code • Pandas • NumPy • QA Testing

ROLE-RELEVANT STRENGTHS

Campaign thinking: Connects audience, offer, creative, landing page, lead capture, follow-up, and conversion.

Funnel thinking: Understands how campaign performance can be diagnosed across the customer journey rather than viewed only at the ad level.

Technical advantage: Software development and data skills support website work, digital troubleshooting, QA, analytics, and rapid adoption of new marketing technology.
